Why Is Funding the Key to Recovery? Activity conducted jointly with the Fitch Ratings agency

Activity held for the first time in Barcelona. FR has been holding these events in recent years in Madrid, in spite of having its Spanish headquarters in Barcelona.

The activity prompted a very positive response by the participants, including both users and non-users of ratings agencies, both because it was the first time it was held in Barcelona and because of the contents and the chance to learn first-hand the opinions of agency analysts.

Final attendance: 70 (out of 94 registered).
